Action in the Park THE NATURE TRAIL 2026

Greener
Healthier
Happier
Together

A huge thank you to the 130 residents, volunteers and students and scouts who helped Trees for Life plant 800 tube stock.

The 2025 plantings have had mixed success but overall a 75% survival rate according to Trees for Life... the Wetlands boggy area provided a real challenge for the tube stock and broken irrigation pipes near the Sensory Garden (twice) along with the cold, wet winter did some real damage to this...so pipes have been repaired (thanks to Council), a French Drain installed, liberal quantities of gypsum applied, species reviewed... so we'll closely observe the results over Summer and Autumn of 2026-7.

Planting dates for June or July 2027 will be confirmed soon – so stay tuned and get the dates in your diary. We will need volunteers to help once again.

Working Bees...

WRAG is beginning a cleanup in Woodlake Drive Reserve with a Working Bee on **Saturday 10 October 9.30am**.

All are
welcome!
